ENCAMPED AT MORONG

News About Movements of American Forces in the Orient.

HARD MARCH OF HALL'S MEN

From the Number of Discarded Uniforms Found in Deserted Houses It Is Believed Filipinos Made a Quick Change.

Manilla, June 6.—The American forces have occupied the peninsula and General Hall's column is encamped at Morong.

Major Truman, marching across the Binangonan, found it impracticable to form a cordon and the insurgents with the exception of a hundred or two escaped through the mountains after General Pilo del Pilar dragging their battery by buffaloes at night. A few, however, may be trapped. The Washington troops have returned to Pasig but the program of the other troops is uncertain.

The present expedition shows the difficulty which is encountered by an army which must depend upon wagon trains in catching barefooted bandits in their own mountains and also gives proof that the insurgents do not intend to fight battles.

General Hall left Santa Teresa Monday and marched 12 miles to Morong up and down rocky hills and through woods and swamps. Scores of his men fell out owing to the extreme heat and were left to follow as best they could.

The head of the army arrived at Morong at noon, having exchanged only a few shots with insurgent skirmishers on the way. Groups of stragglers followed all day, but the force was 200 smaller than when it started. The men were almost 36 hours without rations and it was considerable of an achievement for them to cover the ground they did en route to Morong.

The Americans met flocks of Filipinos and flags of truce, many of them young men with the bearing of soldiers. Many discarded uniforms were found in the houses, apparently those of soldiers who had escaped by changing their costumes from insurrectos to "amigo" and walking boldly past the army, which had expected to corral them.

Few were found about Morong. One member of the Washington regiment was killed and two were wounded in the encounter with the outposts.

General Lawton, on board a gunboat searching the coast for Major Truman, stopped at Binangonan, opposite Morong. The natives immediately ran up a flag of truce, but a delegation in canoes put off and greeted the Americans with the usual protestations of friendship.

A Dangerous Shell.

Manilla, June 6.—The insurgents made an attack upon the friendly town of Macabebé and after driving the inhabitants out burned the town. The insurgents nightly annoy the troops at San Fernando. Several Americans have been slightly wounded recently. The enemy have several Krupp guns, which they bring forward and use for firing large shells into the town then retreating. One of the insurgent shells fell within 30 yards of General McArthur's headquarters.

To Secure Release of Prisoners.

Madrid, June 6.—At a meeting just held at Valencia, the archbishop presiding, it was decided to telegraph an appeal to the peace conference at The Hague, asking the delegates to consider the steps to be taken for the release of the Spanish prisoners in the hands of the Filipinos when their other labors are concluded.

No Important Business.

Washington, June 6.—The cabinet transacted no business of general importance. The entire time of the meeting was devoted to routine matters connected with the various departments. The Philippine situation only came up incidentally and developed nothing new.

Were Unable to Agree.

London, June 6.—The secretary of state for the colonies, Mr. Chamberlain, replying in the house of commons to Sir Edward Temperley Gourley, member for Sunderland, said that before the American-Canadian high commission adjourned proposals and counter-proposals for the arbitration of the Alaskan boundary were made, but the commissioners, he added, were unable to agree respecting the tribunal and terms of reference.

Credit Men Meet.

Buffalo, N. Y., June 6.—The fifth annual convention of the National Association of Credit Men opened here and will continue for three days. The question of petitioning congress to amend the bankruptcy act will be the most important subject considered.

FOREIGN MINISTER
Explains to the Reichstag About the Cessions of Spanish Islands.

Berlin, June 6.—The minister of foreign affairs, Baron Von Buelow, in the Reichstag, made a statement on the subject of the German-Spanish treaty for the sessions of the Carolina, Ladrones and Pelew islands.

He said that in order to round off the German possessions in the Pacific, and in view of German commercial interests which had long existed in the Caroline islands, "we considered it our duty to take care of this group, so that in the event of a change of ownership it should not be lost to Germany."

The minister then read the text of the agreement, which was concluded February 12, 1899:

"First—Spain cedes the Carolines, Pelews and Ladrones islands, except the Island of Guam, in consideration of a compensation of 25,000,000 pesetas.

"Second—Germany concedes the Spanish trade and agricultural enterprises in those islands the same treatment and facilities as conceded to German trade, and concedes to the Spanish religious orders in the islands the same rights and liberties as the German orders.

"Third—Spain will establish naval mercantile and coaling stations in the Carolines, Pelews and Ladrones and will be allowed to retain them in case of war.

"Fourth—This agreement is to be submitted for the constitutional sanction of the two countries and is to be ratified as soon as the sanction is given."

Continuing, Baron Von Buelow said:

"An understanding has also been arrived at with Spain regarding the mutual granting of conventional tariffs, such as correspond with the wishes and interests of Germany as well as Spanish trade. So soon as the cortes sanctions the sale of the islands we will submit the bill to the Reichstag which will have the opportunity of a thorough and practical examination of the matter. Until then, we hope the Reichstag will defer its discussion, out of international courtesy."

Favors More Liberal Terms.

Washington, June 6.—President Schurman, of the Philippine commission, in a dispatch to Secretary Hay, has, it is believed, recommended more liberal concessions to the Filipinos with a view of ending the insurrection at once. An official acquainted with the message said it reviewed the situation in the islands and was of an encouraging nature. The dispatch was considered by the president and Secretary Hay, and the president has sent a reply. The nature of the reply is not divulged.

Actors Engaged by Frohman.

London, June 6.—Charles Frohman has engaged Ellaline Terriss and Seymour Hicks for three years. They will appear at the Criterion theatre, under Mr. Frohman's management, in September in "My Daughter-in-Law," an English adaptation of the present comedy success in Paris, "Ma Bru." After the London season Hicks will appear in New York.

Chips Will Fly.

Kansas City, Mo., June 6.—The convention of Modern Woodmen of America began. About 10,000 Woodmen were present. On Thursday the great parade will be held, the team contests will open and William J. Bryan will speak. The city is decorated in carnival fashion.

Too Hot to Work.

Pittsburgh, Pa., June 6.—For three days the mercury has registered in the nineties. Monday it touched 93 and it promises now to break the record. Many of the mills have been forced to shut down temporarily and a large number of prostrations have occurred.

New Incorporations.

Columbus, O., June 6.—The Glove Sign company, Akron, increase of capital stock from \$50,000 to \$100,000; the Record company, Cleveland, capital stock, \$25,000; the Theurer-Norton Provision company, Cleveland, capital stock, \$80,000.

Three Men Smothered.

Altoona, Pa., June 6.—Three men were smothered to death in a cave at E. D. Peters & Sons' slate quarry at Berlinville. The dead are: Robert Snyder, Jacob Shaffer and Ammon Beers.

Bank Receiver.

Washington, June 6.—Comptroller Dawes appointed National Bank Examiner E. H. Carroll as receiver for the Cocheco National bank of Dover, N. H.

Killed Their Horses.

Cheyenne, Wyo., June 6.—Sheriff Hazen and the posse in pursuit of the Union Pacific robbers had another fight with the bandits. The robbers were surrounded in a gulch and their horses were killed.

ARE DOCILE AS LAMBS

Followers of Mataafa Surrender and Lay Down Their Arms.

QUIET SITUATION AT APIA.

For First Time in Months the Germans Acted With Representatives of Other Powers in Sending Guard Ashore.

Washington, June 6.—The secretary of state has received the following cablegram from Bartlett Tripp, the United States representative on the Samoan commission.

Apia, May 31, via Auckland, N. Z., June 6.—Mataafa disarmed. Over 1,800 insurgents surrendered.

GREAT MOGULS

Of Samoa Visit Members of the Joint Commission.

Apia, May 31, Auckland, N. Z., June 6.—Malletoans and Tamasese have visited the members of the Samoan commission on board the United States transport Badger and Mataafa visited them the following day.

Neither of them was recognized as king. Mataafa expressed willingness to abide by the commissioners' decision and blamed the Europeans for the trouble here.

The commissioners informed him that they had power to establish a government with or without king. Mataafa thought the commissioners should have a king, but expressed willingness to disarm his followers and leave the matter in the hands of the commission.

The Germans acted for the first time in many months with the representatives of the other powers and have officially sent a guard ashore.

The naval authorities and the mission societies have submitted their views to the commission and the latter, by proclamation, fixed May 27 as the date for the natives to surrender their arms.

Mataafa, however, asked for an extension of the time until June 6, when he surrendered 1,800 guns on board the Badger. The Malletoans now are disarmed.

The United States cruiser, Philadelphia, flying the flag of Admiral Kautz, sailed May 21, and the British German consuls, Mr. E. F. Maxine and Herr Rose, proceed to Europe, June 17.

The natives are gaining confidence and are freely submitting their grievances to the commission.

The natives brought here from the other islands at the time of the disturbances will be returned to their homes and all the warships will probably leave Samoa at an early date.

The chief justice, Mr. William L. Chambers, will continue the sittings of the Supreme court. Dr. Wilhelm Self, the newly arrived German president of the municipal council here, has not yet assumed his duties.

The commissioners are reticent, but it is understood they are considering a reduction of the cost of the administration as established by the Berlin treaty and that the number of officials may be reduced. The residents of Apia express dissatisfaction at the indications given by the commission that the insurgents will not be punished and that they will also be paid for arms illegally imported.

They consider this a bad precedent but it is admitted that this is too early to criticize the action of the commissioners.

Judge Mulligan, the former American consul, has arrived to conduct the compensation claims and defend Mataafa. But the commission has intimated that no notice will be taken of the claims beyond recording them, and it is possible the commission will ask each power to compensate its own citizens or subjects as the case may be.

Mataafa Barred Out.

Auckland, N. Z., June 6.—At the queen's birthday celebration in Samoa it was officially announced that Great Britain would absolutely veto any proposition that Mataafa should ever become king.

Conference Ended.

Blomfontein, Orange Free State, June 6.—The conference between President Kruger and the British high commissioner, Sir Alfred Milner, who is also governor of Cape Colony, was concluded. The president and the high commissioners took leave of each other in a cordial manner. They have agreed not to publish the result of their deliberations until Wednesday next. It is believed an agreement has been concluded.

Washington, June 6.—It is settled that the annual game of football between the Middles and West Pointers, which was abandoned during Secretary Lamont's administration, will be resumed.

DESIRE ANNEXATION

Inhabitants of British West Indies Want to Join Uncle Sam.

Kingston, Ja., June 6.—The abstract question of the political possibility and the industrial and commercial desirability of the annexation of the British West Indies is nothing new. As a matter of casual discussion, at least, it has been on the cards since 1867, when General Grant developed the scheme for acquiring the Danish islands.

It, however, remained for the American conquest of Cuba and Puerto Rico to awaken the English colonists to a full realization of the outlook. The Americanization of those two islands presents a most serious menace to the industrial and commercial prosperity of their British neighbors and it is only natural that the English colonists should have been attracted by Andrew Carnegie's suggestion to exchange the British West Indies for the Philippines.

The continued industrial decadence of the islands under the unfair treatment of the mother country and the ever growing menace of Cuba and Puerto Rico has again brought the question into prominence.

In this case it is the island of St. Kitts that has taken the initiative and made some definite move. While Jamaica, on the principle of half a loaf being better than no bread, insists on securing commercial reciprocity with the United States, St. Kitts has come forward with a plebiscite asking for actual legislation.

Detroit Railway Franchises.

Detroit, Mich., June 6.—The Detroit street railway commission will submit practical means for carrying out the municipal ownership of Detroit street railways. Two ordinances will be presented to the common council, one to secure the bonds proposed to be issued by the Municipal Street Railway company (corporation), proposed to be organized within the commission itself to the Metropolitan Street Railway company, a consolidation of the various street railway companies. The other ordinance grants an operation franchise to the Municipal Railway company authorizing it to operate all the lines in the city on straight three-cent fare or five for 15 cents.

Grave Robbed in Hawaii.

San Francisco, June 6.—The reports from Honolulu that when the tomb of Lunailo, the "barefoot king of Hawaii," was recently opened it was found that the remains had been removed and that the metal casket contained only portions of the grave clothes. It is surmised that the body may have been taken by natives to a heathen grave in the mountains as a thunderstorm on the day of the burial had much affected his superstitious subjects. Lunailo was elected in 1873, but 13 months afterwards died of consumption.

Decision Applauded.

Princeton, Ky., June 6.—This town has had the unusual experience of the arraignment of every man in it for contempt of court. It happened that a petition had been signed by all the men in town asking the grand jury not to indict the insurance companies and no indictments were found. The commonwealth attorney moved to proceed against the signers for contempt of court. After considerable argument the judge fined each man one cent and the decision was applauded by the defendants.

Met by Friends.

New York, June 6.—The United States transport Meade, having on board the Nineteenth regular infantry from Porto Rico arrived at Jersey City where the soldiers were met by many of their friends. The regiment is en route for Camp Meade, where the soldiers will remain until about June 15, then proceeding to San Francisco and from there to the Philippines for duty. The men all appeared to be in good health and spirits, and anxious each power to compensate its own citizens or subjects as the case may be.

They consider this a bad precedent but it is admitted that this is too early to criticize the action of the commissioners.

They consider this a bad precedent but it is admitted that this is too early to criticize the action of the commissioners.

Washington, June 6.—General Brooke is seriously handicapped in his administration of affairs in Cuba by the absence of a large number of officers from their regiments. In a cablegram received at the war department he complains of its action in extending the leaves of absence to short vacations.

Plague Sufferers.

Cairo, Egypt, June 6.—The total number of plague sufferers at Alexandria is placed at 14, of which two are dead. Four cases have been cured.

SOLID FOR HENDERSON

Iowa Man Receives Support of New York Members For Speaker.

MR. SHERMAN DECLINES IT.

The Eastern Aspirant For the Honor Realizing That the Western Statesman Had the Prize Practically Secured Retires.

New York, June 6.—A conference of Republican congressmen of New York state to decide on a candidate for the speakership of the house of representatives was held at the Fifth Avenue hotel and resulted in a decision to support David B. Henderson, of Iowa.

The conference went into session behind closed doors. Representative Sherman did not go into the conference. He said it was his intention to obey the decision of the conference whatever it might be.

Congressmen Ray and Wadsworth left before the conclusion of the conference and said they did so because Representative Littauer had offered a resolution endorsing Mr. Sherman. They said they considered this an insult to Mr. Payne, whom they favored as a candidate.

Soon after this those in the conference notified Mr. Sherman that they had decided to vote for him. Mr. Sherman then went into the conference and said that Mr. Henderson, of Iowa, having developed such great strength as would make him practically the only candidate, he would suggest that the delegation go over to that congressman. An informal discussion followed and it was decided to support Mr. Henderson.

Representative Sherman was requested to telegraph Mr. Henderson notifying him of this action. The conference then adjourned. The conference was attended by six of the Republican congressmen of this state and six others were in communication with by telephone or otherwise, so that 12 of the New York delegation of 15 had decided for Henderson.

Mr. Payne, before leaving for Alaska, declared himself as in favor of the Iowan and as his supporters, Messrs. Ray and Wadsworth, will probably follow his lead, it seems certain that Henderson will have 15 votes from New York.

The Baxter Investigators.

Chicago, June 6.—The senatorial committee appointed by the legislature last winter to investigate the methods of the Chicago civil service commission and the police department resumed its sessions in Chicago. The alleged violations of civil service were taken up and evidence was given tending to show that police telegraph operators had been assessed for political purposes. The evidence was in the form of a letter written by an operator, giving instructions to another operator to pay his assessment. The writer, however, testified that the assessment was purely a voluntary one.

THE KNEIPE.

Beer Guzzling by the Students of German Universities.

[By Dr. A. N. Ellis.]

I only wish that I could speak of beer drinking in a German university as I saw it. An American can scarcely realize the recklessness ways of many of the students until he mingles with them. Many of them seem to do nothing else but "drive dull care away." They have a society at Heidelberg known as the Kneipe. Just what that word means I don't know. After I attended the Kneipe just once I did not know anything myself about anything for about a week. To belong to the Kneipe is worse than to belong to the Schneiders and that you know is pretty bad. To be Captain of the Kneipe is a mighty high place in the college world and one worth striving after. The Captain must be one who can drink more beer at a single sitting than any other man in the school. Imagine a great long table in a great big room around which are gathered forty or fifty students. In front of every one of them is a big glass of beer, a long pipe and a box of tobacco. At a given signal the fun begins and everybody begins to load up and fire up. The room is full of waiters bringing the needful from the bar. At first nobody is in much of a hurry for they "won't go home till morning, till daylight doth appear." Every man keeps his own account by laying down a match for every beer glass he empties. Soon there is lots of talk and singing, lots of jingling of glasses and great clouds of tobacco smoke almost thick enough to cut with a knife. As hour after hour passes by and the fun waxes fast and furious and the beer mugs are emptied one after another, one begins to wonder why somebody don't burst wide open and run away all to nothing. It is the biggest show on earth and beats old John Robinson all to pieces. It is almost beyond belief the capacity of some men—I mean of the beer tank and not the brain. Every now and then some chap gets sea-sick and makes a rush for the door and after being out of sight a few minutes comes back to the festal board and falls to work again. Just how much beer some men can drink I don't know. I was told that a certain student who became the Captain of the Kneipe downed sixty-four glasses without stopping. It is the biggest show on earth and beats old John Robinson all to pieces. It is almost beyond belief the capacity of some men—I mean of the beer tank and not the brain. Every now and then some chap gets sea-sick and makes a rush for the door and after being out of sight a few minutes comes back to the festal board and falls to work again. Just how much beer some men can drink I don't know. I was told that a certain student who became the Captain of the Kneipe downed sixty-four glasses without stopping.

In some one took him for a Missourian, but he was not a Colonel, only a hard nut. He had been in the Franco-Prussian war and was a terror with a sword and through his prowess had made short noses the ruling fashion in the university. He was a great bully and cared only for blood, beer and bologna. He became a nuisance to the Americans and more than one sacrificed his good looks to the bully's love for gore.

He finally became unbearable and a big American, a graduate of Yale where he was renowned as an athlete, made up his mind to thrash the Dutchman and save his American bacon. He saved it and is a professor in a Western college now. First he went to a celebrated teacher of fencing and soon was a perfect master of the sword. As soon as he became an expert he was ready to meet the Colonel. He did not have long to wait. It came in with the flowers—in the glad spring time, gentle Annie. A quarrel was brewed as easily as the beer, only it was not all froth. The provocation occurred in the Gast House of the Golden Angel, on the Haupt Strasse, where a lot of German students were drinking and bragging about German prowess and German fighting qualities, for it must not be forgotten that since they whipped the French they have been terribly puffed up. The stalwart American mildly suggested that his countrymen had been known to fight. But the Colonel declared that the Americans were cowards and on being flatly and emphatically contradicted declared that the young Yalesman was another. The American deliberately threw a glass of beer into the Colonel's face and awaited developments. They came. The Colonel arose and spluttered like a volcano. He spit fire and oaths and six-jointed words and issued a challenge right there and then for immediate and bloody revenge, rare done and served hot. He was accommodated and the party hastened to the Hirsch Gosse, where a terrible fight took place, ending in the complete discomfiture of the German and the nice slitting up of his nose you ever saw in your life. After that there was a silence fell with the awaking bird and a hush with the setting moon as to the cowardly qualities of the boys from this side of the ocean. How I would like to hear them talk now when they discuss the outcome of our fight with Spain! In my time I was often told that our American navy was no good. I guess they have changed their minds since then.

MR. ROBERT T. MARSHALL, of Mt. Carmel, one of Fleming County's best and most enterprising citizens, was in Maysville Tuesday on business. He recently sold 2,000,000 feet of lumber to parties at Gallipolis and at points in the East. This lumber will all be hauled to Maysville by wagon, and shipped from here by river and rail. The first shipment, 150,000 feet, goes to Gallipolis by barge. Mr. Marshall secured 2,000 feet of fine quartered oak besides a large quantity of plain lumber from one tree. Besides the lumber, he has sold a large quantity of tanbark and is negotiating for the sale of several thousand railroad ties.

It Will Be County Court Day and a Number of Horse and Cattle Buyers Will Be Here.

Next Monday is County Court and stock sales day in Maysville. Several prominent horse and cattle buyers have promised to be on hand, and our friends in the surrounding country who have any horses, cattle or other live stock for sale would do well to bring them in Monday. Cattle, horses and sheep commanded good prices last stock sales day and the month previous also.

Monday will be a good day for you to do your trading in any line. And bear in mind that in no other city do the merchants carry a finer stock of goods than right here in Maysville, and prices are as low as they are anywhere else, quality of goods considered.

As usual there will be free ferriage for our friends from Ohio on next Monday.

Is It Smallpox or Army Rash?

VANCEBURG, Ky., June 3.—The smallpox excitement in Vanceburg is vanishing in a big laugh. After scores of people had fled the city, after hundreds had been vaccinated and after business had been damaged thousands of dollars, it develops that Captain Edgington is suffering with army rash.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down feeling. But there is no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents at J. J. Wood & Son's drug store. Every bottle guaranteed.

THE TIGER TOBACCO TRANSPLANTER.

Makes the farmer absolutely independent of the weather. He sets his plants when he gets his ground ready, rain or shine. The superiority of the Tiger over all other Transplanters has been plainly demonstrated during seasons of severe drought, when experiment proved it to be the only machine that could be depended upon to give a good stand of plants under any and all weather conditions. With the TIGER the plants are properly set. The roots are in the puddle formed by the water, loose earth being forced down around and above the plant. In effect the water valve on the TIGER stands still at each hill long enough to pour the water precisely where it is wanted—a feature that cannot be duplicated by any machine devised by man. THE TIGER PUTS THE WATER JUST WHERE IT IS NEEDED—AT THE ROOTS. There are many superior points on the TIGER that makes it far ahead of any other Transplanter ever put on the market. We ask your inspection of same and that you place your order at once, as the factory could not supply the demand last season and we, ourselves, were only able to get a portion of our orders filled. So do not delay, but place your order with us at once, that we may be able to supply you before our stock is exhausted. Remember first come first served.

LOUISVILLE TOBACCO MARKET.

Decidedly Stronger at the Opening Last Week—Medium Grades Somewhat Lower—Reds Grades in Active Demand.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amount to 2,668 hds, with receipts for the same period 2,121 hds. Sales on our market since January 1st amount to 88,802 hds. Sales of the crop of 1898 on our market to this date amount to 84,674 hds.

The market during the early part of the week was decidedly stronger for the very common grades of burley, such as are selling below \$5, the advance over the price of last week being about \$1 per hundred, but later in the week a part of this improvement was lost. The medium grades of red leaf, selling from \$8 to \$10, showed somewhat lower values. The red grades, selling from \$6 to \$8, have been in active demand with no recent change in values. Colored kinds of all grades have sold fully as well as last week. The best leaf offered during the week was taken at prices standing from \$12 to \$16.75.

The following quotations fairly represent our market for burley tobacco 1898 crop:
